

Associated Equipment

The following pertains to manufacturers and distributors of Associated Equipment...

The MGC B has identified and categorized specific items of Associated Equipment as defined generally by Rule 432.1101(c). These devices are represented below in the *Associated Equipment Reporting Inspection Guidelines Matrix*. Certain devices or systems require an MGC B gaming-related Supplier License and MGC B Gaming Laboratory testing prior to shipment to the casino licensee. Other devices require only MGC B Gaming Laboratory approval and submission of a Vendor form. The approval process is set forth in Rule 432.1842. A "Manufacturer Laboratory Submission form" must be filed with the MGC B to initiate the approval process.

Please review this matrix carefully. If licensure is required, complete and submit a gaming-related supplier application to the MGC B's East Lansing office. If MGC B Gaming Laboratory approval is required, complete and submit the "Manufacturer Laboratory Submission form" to the MGC B's Detroit Gaming Laboratory. Additionally, a complete working model or prototype of the device or system must also be submitted for inspection by the MGC B Gaming Laboratory.

No Associated Equipment may be delivered to a casino licensee unless all appropriate Licenses/Vendor Identification Numbers and MGC B Gaming Laboratory approval have been obtained from the MGC B.

Cost of Testing - Rule 432.1842(4)(c) provides that the manufacturer or distributor of Associated Equipment is required to pay the cost of the evaluation. MGC B Gaming Laboratory charges for Associated Equipment will be billed at \$105.00 per hour for actual hours spent on testing. All submissions will be reviewed in the order they are received. Incomplete or inaccurate submissions will result in delay of MGC B Gaming Laboratory review and approval.

All submissions will be reviewed in the order they are received. Incomplete or inaccurate submissions will result in delay of MGC B Gaming Laboratory review and approval.

Questions? - For questions regarding the submission of gaming devices to the MGC B Gaming Laboratory, or questions regarding the matrix below, please contact the Gaming Lab at 313/456-4215. For questions regarding licensing or vendor information, please contact the Licensing Division at 517/241-0040.
